

Main features:

- › Weather resistant
- › Multi-operator SIM
- › Tailored data transmission plans
- › 2 years warranty
- › Suitable with all beehives models
- › Possibility to download historical data
- › Access to 3Bee APP/WEB-APP for data visualization
- › Weather forecast availability
- › Display LED for real-time weight measurement

Technical features

Size	55 × 6 × 5 cm 1° rail, 53 × 6 × 5 cm 2° rail
Weight	1,25 kg x 2 rail
Weighing scale	300 kg (4 × 75 kg) that could be enhanced on-demand up to 800 kg
Power supply	Rechargeable Li-Ion battery YJ 18650 3000mAh 3.7V
Data trasmission	Module 2G GSM/GPRS
Main materials	Anodized alluminum rails/Plastic housing
Geolocalization	Possibility to power on GPS
Battery charging	1 W solar panel or power bank
Battery runtime	3 months in standard usage condition
Temperature Range	min-20°C, max +40° C
Monitored parameters	Weight, temperature, humidity, sound intensity and brightness
Cable for scale interconnection size and material	90 cm / material PVC
Cable for sensor size and material	130 cm / material LSZH
